Alaska is an area of natural beauty and magni cent landscapes. Natural forces loom large in our history and in our daily lives. Because of this, our lives are subject to a wide range of natural disasters. Floods, earthquakes, wild res, severe storms, tidal waves (tsunamis) and volcanic eruptions are normal routines. Being prepared for these eventualities is just a matter of a little time and e ort to pull together some supplies to help you adjust to emergencies without undue stress. Stocking up now on emergency supplies can add to your safety and comfort during and a er any natural disaster. Store enough supplies for at least 72 hours.

1. Basic 72-Hour Emergency Evacuation Kit

For emergencies requiring home evacuation.

 C_{i} , a_{i} , c_{i} : A large, sturdy backpack and (if necessary) a sturdy plastic bin, able to be carried by one or two adults in case of evacuation.

L ca. **: :** In your car (not parked in a garage) or near an exterior door of your home. Consider locating a second supply away from your home: at work, on a boat, or at a friend's or relative's house.
