COURSE READINGS/MATERIALS

Required text: Yoe, C. (2013).

. New York CRC Press

Additional readings will be assigned, and are noted in the class schedule. These readings will be posted to Canvas

TECHNICAL REQUIREMENTS FOR COURSE

Students must have regular access to a computer and the Internet to access materials in Canvas. Students will be expected to download course material as well as upload assignments.

INSTRUCTIONAL METHODS

The class consists of 3 credits of lecture (i.e., 3 hours per week). The lecture sections will be based on course readings but will rely on class discussion. It is expected you come to class having read the material and are prepared to discuss the material.

The first three quarters of the class will follow material from the text. Lectures will recap the material, but it is expected you have read the material before class. Thus, the majority of the lecture will be devoted to 1) discussing the points made in the text (i.e., class discussion), and 2) applying the principles discussed in the book to the case study developed for the class exercises (i.e., listed in syllabus as in-class exercise).

The remaining class time will be spent examining the planning process of different agencies and examining case studies.

There will be a mid-term exam and a final exam.

COURSE CALENDAR

The course calendar will evolve as we cover the topics. The time spent on any one topic will be adjusted based on class discussion

INSTRUCTOR RESPONSE TIME

If you email me with a question during weekday daytime hours I will try to reply promptly. However, I have meetings and other constraints that might delay my response time. Although I do check email and respond to students in the evening and over the weekend, occasionally I purposely do not check email during those times. If I know I will have limited contact during the week (travel, other commitments), I will let you know. My goal is to grade assignments and exams within a week.

EFFORT AND STUDENT INVOLVEMENT

This is a 3 credit lecture course. The weekly contact hours and student effort requirements for a traditional face to face class are 3 hours of lecture and 6 hours of studentwork outside of the lecture/lab (9 total hours per week).

STUDENT PROTECTIONS STATEMENT

UAF embraces and grows a culture of respect, diversity, inclusion, and caring. Students at this university are protected against sexual harassment and discrimination (Title IX). Faculty members are designated as responsible employees which means they are required to report sexual misconduct. Graduate teaching assistants do not share the same reporting obligations.
