DAM DE OLEOES

UNIVERSITY OF TORONTO LIBRARIES  
885 WOODSTOCK ST.  
TORONTO, ON M5S 1C4  
(416) 977-7000

It is also important to note that the results of the study were based on a small sample size, which may limit the generalizability of the findings.

**Figure 1.** A schematic diagram of the experimental setup. The top part shows the optical bench with the laser source, lenses, beam splitter, and camera. The bottom part shows the sample stage with the sample holder and the objective lens.

Figure 1. A schematic diagram of the experimental setup. The light source (laser) emits light through a lens and beam splitter. The beam splitter splits the light into two paths: one path goes through a polarizer and a lens to a photomultiplier tube (PMT), and the other path goes through a lens to a camera.

and the corresponding  $\mathbf{A}_\text{obs}$  matrix. The  $\mathbf{A}_\text{obs}$  matrix is a sparse matrix with dimensions  $(n \times m)$ , where  $n$  is the number of observations and  $m$  is the number of variables.

Figure 1. Schematic diagram of the experimental setup. The top part shows the optical path from the laser source to the sample stage. The bottom part shows the sample stage with the sample holder and the detector array.

$$\Sigma = \mathbb{R}$$

Sens<sup>e</sup>

ANSWER: The answer is 1000. The total number of students in the school is 1000.

According to the results of the study, the main factor influencing the choice of the type of school is the family's social status.

The Curriculum Review and Graduate Academic and Advisory Committee of the Faculty

have approved the following:

**Master's Degree Programs**

**Master of Science in Early Childhood Education**

This program is designed to prepare individuals to teach children from birth through age eight. It is intended for individuals who have completed a baccalaureate degree in early childhood education or a related field and who are interested in becoming certified teachers in the state of Florida. The program consists of 36 semester hours of graduate level courses. The courses include: Foundations of Early Childhood Education, Curriculum and Instruction in Early Childhood Education, Assessment in Early Childhood Education, and Research Methods in Early Childhood Education. The program also includes a practicum experience in a preschool setting.

**Master of Science in Early Childhood Education**
